 Written by an experienced teacher and literacy consultant, Planning to Teach Writing offers an easy-to-use, tried-and-tested framework that will reduce teachers' planning time while raising standards in writing. Using the circles planning approach, it provides fresh inspiration for teachers who want to engage and enthuse their pupils, with exciting and varied hooks into writing, including picture books, short stories, novels and films. Exploring effective assessment practice, each chapter puts the needs and interests of pupils at the forefront of planning, and models how to design units of work that will lead to high-quality writing outcomes in any primary school classroom. The book uses a simple formula for success: 1 Find the gaps in learning for your students. 2 Choose a hook that you know will engage your students. 3 Select a unit plan that you know will support you to get the best writing out of your students. 4 Tailor it. 5 Teach it! With a fantastic range of hooks to inspire teaching and learning, Planning to Teach Writing ensures successful planning that will maximise engagement, enjoyment and achievement. This book is an accessible and necessary resource for any teacher planning to teach writing in their classroom.

 Teaching for Student Learning: Becoming an Accomplished Teacher shows teachers how to move from novice to expert status by integrating both research and the wisdom of practice into their teaching. It emphasizes how accomplished teachers gradually acquire and apply a broad repertoire of evidence-based teaching practices in the support of student learning. The book's content stems from three major fields of study: 1) theories and research on how people learn, including new insights from the cognitive and neurosciences; 2) research on classroom practices shown to have the greatest effect on student learning; and 3) research on effective schooling, defined as school-level factors that enhance student achievement and success. Although the book's major focus is on teaching, it devotes considerable space to describing how students learn and how the most effective and widely-used models of teaching connect to principles of student learning. Specifically, it describes how research on teaching, cognition, and neuroscience converge to provide an evidence-based "science of learning" which teachers can use to advance their practice. Key features include the following: Evidence-Based

Practice – This theme is developed through: 1) an ongoing review and synthesis of research on teaching and learning and the resulting guidelines for practice and 2) boxed research summaries within the chapters. Instructional Repertoire Theme – Throughout the book teaching is viewed as an extremely complex activity that requires a repertoire of instructional strategies that, once mastered, can be drawn upon to fit specific classrooms and teaching situations. Standards-based School Environments – Education today is dominated by standards-based school environments. Unlike competing books, this one describes these environments and shows how they impact curriculum design and learning activities. The objective is to show how teachers can make standards-based education work for them. Pedagogical Features – In addition to an end-of-book glossary, each chapter contains research boxes, reflection boxes, itemized end-of-chapter summaries, and end-of-chapter learning activities. Website – An accompanying website contains a variety of field-oriented and site-based activities that teachers can do alone or with colleagues.

„Die Pilgerreise zur seligen Ewigkeit“ ist eine christliche Allegorie aus dem Jahr 1678 und gilt als eines der bedeutendsten theologischen Werke in der Literatur und als Vorläufer des erzählerischen Aspekts christlichen Medien. Der unwiderstehliche Reiz des Buches, das die Vorstellungskraft des Lesers mit der Handlung und der Szenerie eines Märchens beglückt, das seinen Einfallsreichtum anregt, indem es ihn dazu bringt, eine Vielzahl kurioser Analogien zu entdecken, das seine Gefühle für die Menschen interessiert, die verwundbarer sind als er selbst und mit Versuchen von innen und außen kämpfen, das ihm jeden Augenblick ein Lächeln entlockt durch manchmal wunderliche und doch einfache Annehmlichkeiten, und das dennoch in seinem Geist ein Gefühl der Ehrfurcht vor Gott und des Mitgefühls für den Menschen hinterläßt, wird bei jedem Leser seine Wirkung entfalten. Der vorliegende Text folgt der 1859 herausgegebenen Edition der Wuppertaler Traktatgesellschaft, wurde aber in den wichtigsten Worten und Begriffen soweit überarbeitet, dass diese der aktuell gültigen Rechtschreibung entsprechen.

"User Story Mapping" ist in den USA längst ein Bestseller. Die von Jeff Patton entwickelte Methode knüpft an bewährte Ansätze aus der Agilen Entwicklung an und erweitert sie. Die Idee: Die Produktentwicklung wird detailliert am Arbeitsfluss der Nutzer ausgerichtet und in Story Maps kontinuierlich dokumentiert und illustriert. Dadurch entsteht im gesamten Team - bei Entwicklern, Designern und beim Auftraggeber - ein deutlich verbessertes gemeinsames Verständnis vom Gesamtprozess und vom zu entwickelnden Produkt. Gleichzeitig wird die Gefahr reduziert, sich in unwichtigen Details zu verzetteln oder gar ein Gesamtprodukt zu entwickeln, das dem Nutzer nicht hilft.
